MSc Computer Science
Full stack Web Developer and DevOps

ABOUT ME

I'm Tété Elom Mike Norbert LOGOVI, fullstack and DevOps web developer, specializing in web application design and development. I work as a freelancer, offering personalized services tailored to the specific needs of each customer. My aim is to support my partners in their digital projects with expertise and commitment.

SERVICES

- Analysis of requirements and drafting of technical specifications
- Design and development of web and mobile applications
- Performance optimization (backend and frontend)
- Maintenance, updates and continuous improvements
- Advice on software architecture and technology choices
- Integration of APIs and third-party services
- Configuration and automation of CI/CD pipelines

MASTERED TECHNOLOGIES

- Frontend : HTML, CSS, JavaScript, Vue.js, React, Wordpress
- Backend : PHP (Laravel), Node.js, .NET Core
- Databases: MySQL, PostgreSQL, MongoDB, SQL Server
- DevOps tools: Docker, Kubernetes, Gitlab CI/CD, Jenkins, Ansible
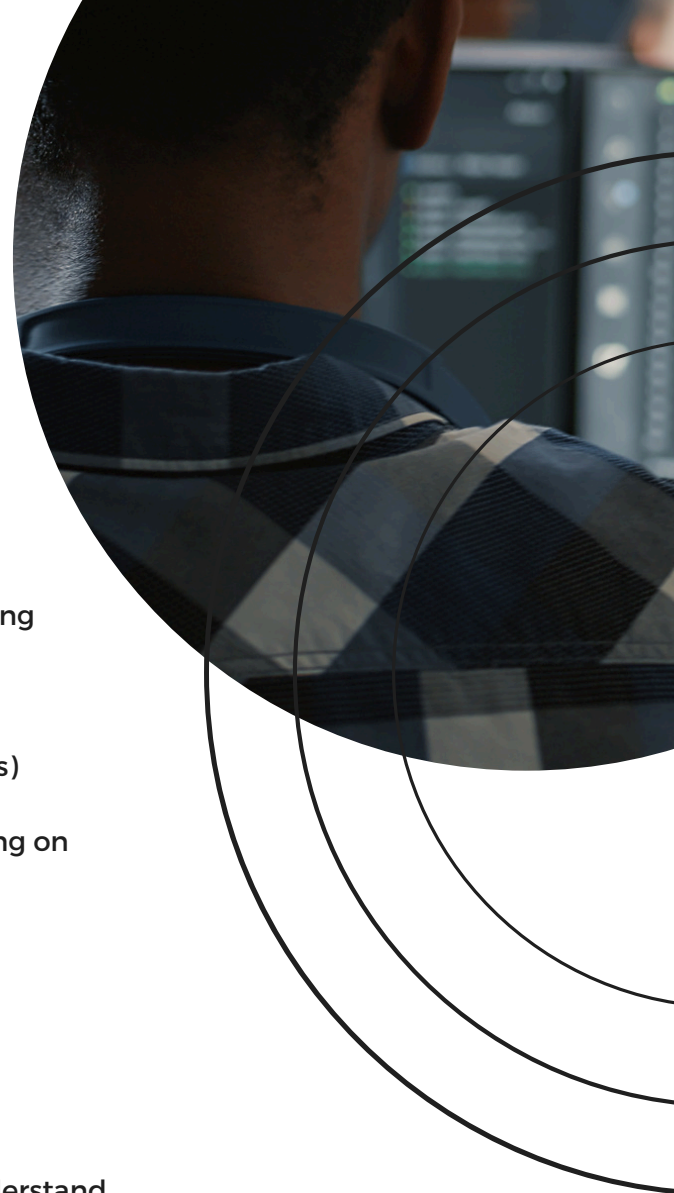

CONSULTATION MODALITY

- Consultation format :
  - Online: Zoom, Google Meet, Microsoft Teams
